

GEZE Door Hardware

Opening Doors to a Better World with Geze : Your Gateway to Innovation!

GEZE GmbH is one of the most successful providers of building systems for door, window, and safety technology in the world. As one of the market leaders in innovation and design, the company, which was founded in Stuttgart in 1863, develops, manufactures, and sells pioneering technology that has played a key role in influencing building technology. With its 37 subsidiaries and a comprehensive network of representatives, GEZE is represented in almost every part of the globe.

Company's success through...

A power to innovate and experience:

We develop system solutions and anticipate the needs of our customers and the market.

Technical know-how and quality:

Highly qualified and creative employees, systematic innovation management, and precision combined to develop reliable, safe, and user-friendly products with outstanding designs.

A focus on service and individuality:

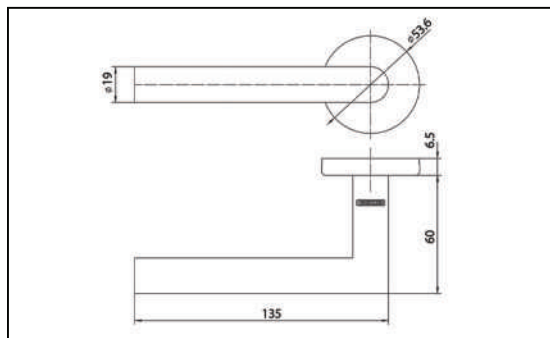

Our goals and actions are defined by providing our customers with a complete service and product-specific solutions, from design engineering to servicing the systems.
